PURPLE WAVE  
PRODUCTIONS LLC

*There are DJs who fill rooms, and there are artists who transform them. DmoCobb is the latter — a selector whose performances belong to no single genre because they belong entirely to the moment. With label releases on Darklight Recordings, an Apple Music 1 premiere through Anna Lunoe and more than a decade commanding floors from packed clubs to large-scale festival activations, he brings the kind of credibility that shows before the first track drops.*

#### BIOGRAPHY

DmoCobb is the Austin-based DJ and music producer who has spent more than 14 years building a reputation that crosses genres and audiences. His sets move across open-format dance music: house, hip-hop, club rhythms and global influences, shaped by years of set curation, reading rooms, not following trends.

His production catalog includes releases on Fedde Le Grand's Darklight Recordings and Wile Out Records, as well as original independent releases available on all major streaming platforms. His single "Show Me Luv Riddim" earned an international premiere through Anna Lunoe's HYPERHOUSE on Apple Music 1, reaching audiences in more than 100 countries.

He has performed alongside Walshy Fire of Major Lazer, Habstrakt and Kill The Noise, with appearances at SXSW, Circuit of the Americas and the 2026 ATX Open Players' Party at The Driskill. Houston raised. Austin based. The resume grows.
